Usury in the House.—In addition to what is already stated in our legislative reports in regard to the usury bill that is now being considered in the House, we give in full the remarks of Mr. Walker, of Richmond, who rose to explain his vote.

Said he: MR. SPEAKER-By the kind indulgence of my friend from Guilford, who has control of this measure, I am permitted to state my views and the reasons for my action upon the pending proposition being the amendment of the gentleman from Cabarrus (Mr. Means) to extend expressly the provisions of the bill before the House to the National Banks established in this State

established in this State. established in this State.

I deeply regret, Mr. Speaker, that on this, the most important and vital question to the people of North Carolina, I am placed in a position of antagonism to some of my political friends with whom I have stood shoulder to shoulder in advocacy of the great questions affecting the material interests of our State. If I were permitted to stray from the line of argument upon the pending question and to speak to the merits, I would take for my text, the notable expression of Shakespeare in his King Lear, that, "Striving to better oft we mar what's well." But I am now confined in my remarks to the constitutional or legal aspects of the question, and I apprehend that if I cannot convince the House that this measure will not remedy the evil they seek to remove, then, sirs, I have successfully demonstrated that this biil is detrimental to the interests of our people, in that it enables the National banks to menopolize the benefits of the free money system. But, Mr. Speaker, I may be generalizing too much, and abusing the privilege accorded to me by the gentleman from Guilford. I will therefore leave this question until we come to the merits, and address myself to one question which is solely connected with the amendment. It is conceded that if the National banks are not subject to the provisions of this bill, that it will operate detrimentally to our people. This briefly states the

adverse sentiment to contend with; yea, an overwhelming adverse sentimost immovable majority that there is a grave and serious doubt as to the power of this body to reach the National banks, then we have decided this question. If the Courts should decide adversely to the majority that this bill cannot reach the National banks, then all the evils they would cure must ensue, and to an alarming extent. This is admitted.

confined to State institutions.

country by the ablest decisions upon questions of constitutional construction, decide that we can't reach Nathe public ladies especially.

District. THE SWASEY SUIT—SALE OF STOCK OF THE N. C. R. R. Co.—We learn that Messrs. Budd & Brewster, Attorneys for the bondholders, have given notice to the defendants in the Swasey suit, (the N. C. R. R. Co., &c.,) that they will on 1st March next, move to quash the appeal from the decree ordering the sale of stock. for the payment of arrears of interes due by the State. If this motion should succeed the stock will be sold shortly, unless the Legislature shall take steps to prevent it. Sold at auction, the stock will be sacrificed.

We have seen the printed brief and argument for the bondholders, in try.

patrons of this measure to the mingled alarm and disgust of the country. which quite an array of authorities is

presented in support of the motion to to establish the new county of Pen-der, from a portion of New Hanover county, passed its final reading in the House yesterday, and is now a law. The Usury bill was taken up as the second special order and discussed to the hour of adjournment. It will come first this morning as the unfinshed business, and will doubtless occupy the entire day, except that porsion on the Glenn-Civil-Rights resolutions, which will come up at 12 o'clock and be considered by the

House as a committee of the whole, DESTRUCTIVE FIRE AT WILSON'S MILLS.—We learn of a most destruc-tive fire at Wilson's Mills, on the line of the North Carolina Paitroad, on Wednesday night. The residence of Mr. R. K. Ferrell was burned, together with all the furniture and clothing of the family, Mr. Ferrell with difficulty escaping with his family, not a garment being saved other than the night clothes. Loss some \$7,500, with no insurance. The fire was the result of an accident,

having originated from a cooking MORE IMPROVEMENTS.—Mr. Zie gler, the well known eigar manufacurer of this city, whose brands, the 'Raleigh Favorite," "Excellent," 'Legal Tenders" and others have won so much reputation, is erecting a handsome glass front cigar store, one door north of the Yarborough House, and adjoining the NEWS

The New credit Mobilier. We copy from an exchange an ex-

cellent article on the grand lobby scheme now before Congress to drain the National Tresury for the Texas, Pacific and Southern Pacific Railroad—a Railroad which is in every sense anything but a Southern Napoleon Scott returning from Elba to be sent to At Helena .- It seems that Tom Scott was not so utterly defeated as we had hoped in his am bition to grasp the wholer ailroad system of the South. He was only sent to Elba, and is now marching, we trust, to a Waterloo defeat, after which he

will be consigned to his St Helena and molest us no more. Heretofore we have had little or nothing to say of the Texas Pacific Rairoad, because we could not believe that even a Radical Congress would yote Mr. Scott the prodigious sum which he asks, and for the attainment of which he has organized the most formidable lobby ever displayed in Washington. But the audacity of Mr. Scott has never before been so conspicuous ly shown as by his present demands nor the flexibility of Congress so marked as by the consideration it has given the pending scheme. The proposition, put in few words, is to add to the public debt by the issue of bonds in Scott's favor equal to the prodigious total of \$154,000,000, which at five per cent. would saddle the an nual sum of \$7,700,000 interest on the tax payers of the country for a period of forty years, making a total payment of interest in that time of \$308,000,000, and an ultimate total of principal and interest equal to the sum of \$462,000,000! These figures represent such vast sums that they carry little meaning to the reader. We

regard them just as we do the estimated distances of planets and our minds recoil in fatigue from the ef-fort to comprehend them; but, when we say that it is proposed to vote Mr. Scott a sum something like one-fifth of the national debt, our readers will gather a faint conception of the mag-nitude of his enterprise. But this by no means expresses the audacity of his application. He claims this vast subsidy on the ground that the Texas Pacific is to be a Southern Road, and if this were the fact—if he really desired to benefit our section, there might be reason in the argument that the South was entitled to this expenditure. But this is the pretext under which he operates, not the reason by which he is governed; and yet we see, by a letter in the Tribune of Saturday last, that many "Southern journals" are taking this view of the case and giving him credit for friendship towards the South. It is also understood that really desired to benefit our section the South. It is also understood that the Lobby, which we have justly called the "Fifth Estate," has been sending its agents to various State the impression that the Southern Pacific is for our special good and ad-vantage. Nothing could be more preposterous than this. Colonel Scott, as Assistant Secretary of War, did more than any other man in the United States to overrun the South,

and now, in peace, he burns with a selfish ambition to complete our conquest and subjugation. It is absurd to suppose this enter-prise is for the purpose of benefitting us. It is for Colonel Scott's advant-age, and with ultimate ends in view, of the greatest magnitude and fraught with the greatest danger to the South. Colonel Scott claims that New Orleans, Savannah and Charleston, (Norfolk and Wilmington excluded,) together with Baltimore, Philadelphia and New York are his objective points; but in point of fact, if he had the road, he would make St. Louis, with its gigantic bridge, his objective on the Western bank of the Mississippi, and from that city would distribute his freights to the cities of the North; so that it is an insult to our intelligence for him to tell us that his road is a Southern enterprise. In point of fact his contemplated improvement would be better described if he called it the Trans-Mississippi-and--Bar--to-the--Pacific-Anti-Southern-Line; for its effect would be to cut off the South from the Pacific once for all. In Virginia and North Carolina he can never hope for countenance and support, either from press or people; for in his letter of January 25, to the editor of the New York Times, he excludes, as we have said, Norfolk and Wilmington from the seacoast cities which he pretends would be benefitted by this monstrous job. Whatever delu-sion may influence honest but ignorant men in other States, this speci-fic omision of Norfolk and Wilming-

MARRIED.

ton in Mr. Scott's own letter, must

be fatal to his audacious scheme in

Virginia and North Carolina, even

if our legislators were ignorant of the bad odor of Credit Mobilier per-

fume which is wafted abroad by the

THE LEGISLATURE OF NORTH CAROLINA ment as detrimental to the bill which he advocated at considerable SENATE.

FIFTY-SECOND DAY.

FEBRUARY 11th, 1875. Senate met at 11 o'clock, President Armfield in the Chair. Prayer by Rev. Mr. Rich Journal of yesterday read and ap-

PETITIONS. Mr. Jenkins, a petition from Cleave-

Mr. Jenkins, a petition from Cleave-land county to require all men be-tween 16 and 50, except ministers, to work on the public roads. Referred. Mr. Marler, a petition from citizens of Dobson Township, praying an amendment to prohibitory liquor law as regards the town of Dobson. Re-formed

Mr. Cantwell, a memorial asking that liquor be allowed to be sold in Harnett Township, New Hanover county. Referred. RESOLUTIONS. Mr. McElroy, a resolution in favor of the late Sheriff of Buncombe. Re-

Mr. Jenkins, a resolution urging Congress to extend aid to the Southern Pacific Railway. Referred. House resolution asking our representatives in Congress to urge the re-pealing of the tax on our State banks' issue, was considered at some length.

BILLS. Mr. Cashwell, a bill to provide for laying out lands. Referred. Mr. McCauley, a bill to charter the Monroe and Lancaster Narrow Guage

Railroad. Referred. SPECIAL ORDERS. Mr. Selby's bill relating to pilots. Prevents any other than an authorized pilot to act ac such on the coast of North Carolina, where such can be

obtained.

Mr. Selby explained the danger to both life and property in allowing inexperienced men to perform the duties devolving upon the pilot. Mr. Bell opposed the bill. He thought it would work hardship to the body of the poor people on the coast and harm to the shipping in-

terests of Eastern Carolina. Mr. Cantwell favored the bill. The pilots were subjected to great hardship, being compelled to respond to all demands upon them, no matter what dangers may threaten them, and he did not think they should be supplanted in quiet waters by inexperienced men.

Bill failed to pass its second reading

by a vote of 14 to 15 RULES SUSPENDED. Bill to allow the county of Currituck to issue bonds for certain pur-poses. Failed to pass its second reading by a yote of 14 to 15.

Bill to authorize the Commissioners of Guilford and Rockingham to employ convict labor to drain certain

lands. Passed its several readings.

Chester and Lenoir Narrow Guage Railroad Company was considered. MISCELLANEOUS. Mr. Cantwell presented a protest tion of the majority in the Senate on the subject of Usury. The report from the Committee to

investigate the affairs of the Wilmington, Charlotte and Rutherford printed. Mr. Albright was in his seat today, having been absent some days

in consequence of sickness in his Adjourned. HOUSE REPRESENTATIVES. The House was called to order at 10 clock, Mr. Speaker Robinson in the

Prayer by Rev. Mr. Rich, of the eity. Journal of yesterday read and approved. Reports from Standing Committees were submitted by Messrs. McRae, Mendenhall, Shackelford and Tate.

By Mr. King, a bill to amend an act amendatory of an act to charter the North Carolina Railroad. Referred. By Mr. Hooker, a bill to prevent the sale of liquor within two miles of

INTRODUCTION OF BILLS.

Little Church, Green county.

By Moore, colored, a bill to charter Patrons of Mercy Lodge No.1, of the city of Wilmington.

By Mr. Means, a bill (with a communication in the nature of a memo-rial), to prohibit the sale of liquor within two and a half miles of Rocky River Church, in Cabarrus county. By Mr. Gudger, a bill and petition to prevent the sale of intoxicating liquors in certain localities in Yan-

was taken up as the unfinished busness of yesterday.

The amendment of Mr. Means, which provides that unless the act applies to National banks, then the aw to be null and void. Mr. Patton opposed the amendment, stating that they were intended to clog the passage of the bill, and hoped every one would be voted down.

THE USURY BILL

cey county.

Mr. Means said he offered the amendment for no such purpose, but as a necessary safe guard to the protection of the people. The suppor-ters of the bill claimed that it applied alike to National banks, then object to my amendment, etc. If you leave the amendment out, I consider such legislation crushing to our State institutions. I therefore insist on my amendment.

Mr. Moring advocated the amendment of the gentleman from Cabar-rus. He would only discuss now the questions of law involved. He went into this discussion only half-armed, as this House refused to refer on yes terday for the purpose of investiga-tion. He was of the opinion that it was extremely doubtful that the State Legislatures could impose any penalty upon National Banks, other than that put upon them by the National Currency act, and cited Central National Bank vs Pratt, a decision of the Supreme Judicial Court of Massachusetts, and other decisions in support of this position. He was of the opinion that when Congress had legislated within the limit of its constitutional authority the State could not legislate to con-

travene its acts. For these reasons, he was for the amendment, as he did not wish to put penalties on the citizen that could not apply to National Banks, but would make of them much greatmonopolies than they now are. Mr. Pinnix opposed the amend-

length, arguing that the objections urged by the opposition would prove a hardship on the poor men, was fal-lacious, and brought forward an array of proofs to show that of all our pop-ulation this class were the most ben-efited by its provisions

TUE LEGISLATURE.

efited by its provisions.

Mr. Dortch, in opposing the amendment, which he considered was intended as a dilatory measure, argued the legality of the measure proposed, and replying to the argument of Mr.

Moring.
Mr. McRae, in an able speech of twenty minutes, advocated the adoption of the amendment. He was surprised to find any opposition to it by the supporters of the bill, when the opponents only asked this as a safe-guard for protection against crushing unonopolies, &c. He was opposed to any usury law, but if the General Assembly was determined to pass one, he would certainly insist on the

one, he would certainly insist on the protective clause.

Mr. Mebane also favored the amendment, though he opposed the bill. He was clearly of the opinion that the amendment proposed was necessary for the protection of the people, and he would vote for it.

Mr. Chemith post tech the floor Mr. Oaksmith next took the floor in advocacy of the amendment in an able argument of considerable length.

Mr. Staples opposed the amend-ment. His argument was strictly a legal one, in which he brought for-ward and cited authority from vari-ous authors learned in the law, Supreme Court decisions, &c., to show that no legal objections could be urged against the bill in the present form. Pending his argument, inasmuch as it was just the hour for ad-

journment, he would give way to a motion to adjourn. During the argument of Mr. Sta-ples he yielded thirty minutes to Mr. Walker, of Richmond, to explain his

vote. PENDER COUNTY. The special order being the bill to establish the county of Pender, it was taken up at 12 o'clock and put on its third reading.

Mr. Moring opened the argument in opposition to the bill, and was ably opposed by Messrs. Walker, of Richmond, Means, Gudger, Strong and Whitlay

Whitley,
Mr. Candler opposed the bill.
Mr. Moring offered an amendment to submit the question for ratification to the qualified voters of the proposed new county.

After considerable discussion the

mendment failed to pass by 50 yeas to 54 nays.

The bill passed its final reading by 62 to 32. On motion of Mr. Walker, of Richmond, the vote by which the bill passed its final reading was re-considered and that motion laid on

BLANKS. BILL HEADS, LETTER HEADS. CARDS, PROGRAMMES.

HANDBILLS, PAMPHLETS POSTERS, CHECKS, DRAFTS, &c JUSTICE TO ALL. It is the purpose of this journal to render exact and equal justice to all without undue laudations of some, and oblivion or oversight of others. If in the notices of legisla tive proceedings, names are sometimes omitted, when justice would have demanded honorable mention. it is not because of intentional slight or failure of due appreciation of merits, but from the haste inseparable from the preparation of the

the paper. As, for instance, the omission of the name of Mr. Erwin in the discussion of the bill on Tuesday in the matter of the W. N. C. R. R. might mislead his constituents to the belief that he was indifferent to their interests, and negligent of his duties.

matter for the evening edition of

On the contrary, we can bear witness to his watchfulness, his zeal, and his ability in all those subjects in which interest has been called forth, whether in relation to his own section, or the more expanded claims of the whole State, and no constituency has a more faithful representative than Mr. Erwin, and none more honored and respected in the House than the able member from the county of McDowell.

We may here state, that in our reference in the article of yesterday to those western gentlemen who stood as faithful sentinels and workers for the interests of the west, we must by no means be understood to limit our commendations to the very few whose names were mentioned. We named but few by way of illustration. If we had indulged our inclination we would have gone on to name Robinson, and McElrov. and Gash and Erwin, and in fact, almost the full delegation from the section whose interests are assumed to be without advocates. We know planation from us, because they know that we would be false to facts if our silence was construed into denial of their just claims.

SOME OTHER EFFECTS.

A gentleman has handed us letter from a citizen of Onslow county which is another illustration of the effects of the policy of the Administration upon the sentiments of the South. The writer is a Northern man who has come to the South since the war, who has cast his fortunes with the Southern people, fully assured of his safety and their loyalty; who is a man of large means and great influence : and who is, or until lately has been, a Republican. We make some extracts from his letter to show the operation on his mind of the arbitrary and unconstitutional acts of the President in Louisiana, and also to show how the same acts has influenced his views with regard to the Convention question.

Hear the once devoted follower

of Republican leaders: "What do you think of our country now? Of the usurper; who, seated in the Chair at Washington, Adams and Jefferson once occupied, has trodden liberty and law beneath has trodden liberty and law beneath his feet, seeking to destroy what he was sworn to preserve? How proud the "great party of liberty and progress must be of their representative head? How exultant they must feel when they think of bayonets in a legislative hall, brute force in place of mind, cold steel for intellect, and military despotism in the sacred place of constitutional law! Proud record this for a party, indeed, and this too in a Republic!"

the bar Alegan "Exactly how you stand on the question of Convention, I do not know, and (even though I could) would say nothing to unduly influence your mind. But I am free to tell you how it is with me. Previous to the outrages perpetrated in Louisiana on the 4th day of January, I had doubts as to its expediency. Now I have no doubts, and though not a line of our constitution could be improved were I a member of the I proved, were I a member of the Legislature I would still vote for a convention, if only for the one good reason of showing to the world at large, and Grant, his party and their erty of a county at merely nominal minions in particular, that I was a freeman and a representative of a free people who dared to exercise every right inherent in the people."

"Vote for a Convention!" These extracts exhibit a thorough conversion from the ideas of the Republican party. The seeds, sown by the Civil Rights bill, have been ripeded by lawless abuse of power. And so it will be in the minds of all whose freedom of thought has not been sold to servitude and whose liberty of action has not been bar-tered for office. THE LEGISLATURE.

Friend Yates, of the Charlotte Democrat, the other day referred to class of men who conceived certain avocations as things to which they were born, and which were things of all others, the most easily doneto keep a hotel—to edit a newspaper, and to manage finances. He might have added to his classification, thuse who are born to legislate. Under this head might seem to come friend Jones, of the Observer, who criticises the short-comings of the present General Assembly with so much acuteness, discretion and fairness, that we might feel assured if the citizens of Mecklenburg had been sagacious enough to divine his hidden talents, the work of legislation would have been simplified in his hands, all its obstacles removed, all its embarrassments cleared up, and all its vexatious delays done away with. Members would have gotten their breakfasts by torch light, gone to work by sunrise, done away with the work of Committees, thrown Battle's Revisal out of the windows. or accepted without a question all its contradictions, reconciled all conflicting railroad interests, settled the State Debt, framed the revenue law, called a Convention, and possibly have gone home to supper with the happy consciousness of a good days work and the well earned rep-

Now, our friend knows how easy it is to rouse a prejudice against a deliberative body, and create false impressions as to its fidelity to duty. It is a ready ad-captandum argument addressed to ignorance and inexperience. It is a weapon that is well enough to leave to be used by an enemy. It is not the one to be handled by a friend of the majority in the Legislature. They are sufficiently occupied with the weighty and embarrassing questions before them to stand in need of all the forbearance and good nature of their friends. They do not appreciate a humor which holds them up to contempt, or relish a jest which puts

utation of useful and brilliant legis-

their usefulness to hazard. The Legislature will willingly releive our friend of all responsibility for their deeds, and hope to give such an account of their doings to their constituents at the proper time, as will relieve all his anxieties.

LEGAL ADVERTISING. A bill is before the House, which, when it is called up, we hope will secure more consideration than the one which was so unceremoniously and precipitately laid on the table.

Several times in the history of the Legislature of the last few years, the same subject has been before one or the other of the two Houses. and as often has been contemptuously overlooked, or when considered at all, regarded with suspicion and disfavor. One prominent idea seemed to possess the minds of manythat it was a scheme altogether in the interest of the press, and an engine of oppression to the people Now it is not denied that the press would derive advantage from the measure proposed; nor can it be denied that the public would be the gainer by the property thus insured by the aid given to an avocation so often languishing in poverty, and too often the resort of those unequal

to its responsible duties. But in the inception of the idea the press was actuated by those motives which, to its glory be it said, has so constantly made that profession the unselfiish advocate of popular rights, the promoter of public good, and exposer of injustice. It has occurred in the experience of almost every one-an experience kept bright by daily observation, that property is sold for far less than its value, that sales are made and titles passed for property worth, oftentimes tenfold the price it brought, and this, too, when the transaction was perfectly legal, and when all the forms of the law had been complied with. Why was this so? Because such sales. though nominally public and advertised as the present laws now requires, are in reality private, without the stimulus of competition, and bringing just such prices as suits the convenience of the few bidders present. Estates are defrauded. debtors fail to be relieved by the sacrifice of their property, and a few watchful men absorb the prop-

rates. It is in justice to this class of cases that the law is proposed to apply. It proposes to require all such notices of sales, &c., as are now required to be advertised by manuscript notices, to be printed in some newspaper published in the county in which the sale or other transaction is to be made. Where there is no paper published, the present mode may still obtain. The cost of publication not is to exceed the regular charges of advertising.

There is really no additional expense incurred, for the increase in value given by publicity will vastly more than compensate for the charges of advertising.

This is the opinion of many lawyers, sheriffs, clerks of courts and others whose experience is large and whose opinions should be heeded.

CHILDREN MADE HOMELESS BY FIRE.—Hartford, Conn., February 7. During the absence of Mr. and Mrs. Richard Daniels, of Lynn, Conn., from home on Thursday night, their house was burned, taking fire from the explosion of a kerosene lamp. Their children, seven in number, the oldest being seventeen years, were obliged to flee half-dressed. One of them, a boy of eight years, reached a neighbor's, and was found on the door-steps next morning nearly dead. The others took refuge in a clump of edars near by, and on Friday m ing when help arrived one of them, a girl thirteen years old, was so badly frozen that life is despaired of.

THE WAY THE MONEY GOES. Much more than oue-half the apple cations made for bank circulations inder the new law have come from New England. Western banks have surrendered more circulation than has been applied for by new banks in all the south and West. This shows that the entire increase of circulation has gone to New England

Gen. Sheridan has manufactured the following information which has been furnished as a special to the Washington Republican from New Orleans, under date of the 9th: "General Sheridan, in a note to the Hon. George F. Hoar, chairman of the Congressional investigating com-mittee, says: "In response to the inquiries of the members of the Con-

ressional committee, as to the numer of persons killed and wounded in the State since 1866 on account of their political opinions, I have to state that the number reported to date is as follows: Killed, 2,141; wounded, 2,115; total, 4,256. A Virginia Senator has come to

grief for forging. Says a Burkeville dispatch to the Richmond Whig: "Senator Graham, tried before Jus-tice Henry Smith for forging Evans' name in the Schoolcraft cadetship case, has been sent on to the Circuit Court, which meets in May. Two hundred dollars bail was required and

King Kalakaua sampled St. Louis whiskey when passing through that town and it proved too much for his saddle-colored majesty, who got as drunk as a "biled owl."

CONSUMPTIVES, Take Notice.—Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup as a cure for consumption, far exceeds all that c. n be brought to support the pretensions of any other medicine, see Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmouic Syrup alone has cured many, as these evidences will incurable by physicians of acknowledged ability. Schenck's Palmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpo-e. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of Consumption may be cured.

Dr. Schenck is professionally at his principal office, Corner Sixth and Arch Sts., Philadelphia, every Monday, where all letters for advice must be addiessed.

GUANOS. E N U I

ORCHILLA GUANO A.A.

Office 82 South Street, Baltimore.

Soluble Ammoniated South Sea Guano. B. M. RHODES & CO.,

A TRUE BIRD GUANO.

Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Pennsylvania at Philadelphia. Chemical Laboratory of the University of Pennsylvania.

WEST PHYLADELPHIA, January 4th, 1875, prepared for Cotton by B. M. RHODES & CO., 82 South Street, Baltimore, 182 lbs., which I found to contain—

MOISTURE, 15 53 per cent.

SOLUBLE PHOSPHORIC ACID, 4.32 " equivalent to 9.43 pr. ct. of Bone Phosphate of Lime PRECIPITATED, "7.16 " 15.63 " 2—Sample of "Orchilla Guano, A.A., B. M. RHODER & CO., Importers' Agents, 82 South Street, Baltimore, 167 lbs. Curacao," which I found to contain—

PHOSPHOBIC ACID. - 26 86 pr. ct., equivalent to 58 64 pr. ct. of Bone Phosphate of Lime Alkaling Salzs, - 4.53 Both samples were certified to having been taken, sealed and sent by Thos. HARRIS Hongris, Notary Public, and were in perfect condition. F. A. GENTH. Professors TONRY, LIEBIG and MALLET say of the Orchilla Guano:

The Orchilla, which seems to be an organic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis as well as a thorough examination of the mechanical condition as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I feel perfectly justified in recommending the Orchilla.

W. P. TONRY,

Prof. Anal. and App'ld Chemistry, Maryland Institute. The Orchilla Guano, which is touly an organic deposit, deserves well the attention of the farmer, not only on account of the high grade of its Phosphates of Lime and Alkaline Salt, but more particularly for the physical condition and texture in which this Guano is presented.

G. A. LIEBIG, Ph. D.

This material decidedly recommends itself to the attention of farmers by its large proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Peruvian Guano, Colton Seed, Mill Refuse or other material attording Nitrogen when it is desired to combine the effort of Ammoniacaj with that of Phosphatic Manure.

I am, gentlemen, respectfully yours,

J. W. MALLET, Charlottsville, Va.

RALFIGH, N. C., January 29, 1875.

From the Analysis of Dr. GENTH 'here is no doubt of the high per centage of Phosphate of Lime in this Guano, and I endorse the recommendations of Prof. Mallett upon 'he above testimony of hims-II and Prof. Liebig & Tonky as to its physical condition that it offers a desirable source of Phosphoric Acid to Cotton Farmers and others who have the means of furnishing the Nitrogenized matter at home.

W. C. KEBR.

MESSES B. M RHODES & Co.:—The Orchilla Guano which I used on my plantation tave me perfect satisfact on, and my manager says it was equal to two others which ost me \$60 per ton.

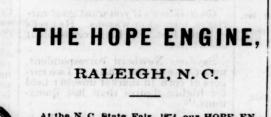

JOHN A. OATS, Late Sheriff. gave me perfect satisfact cost me \$60 per ton.

he vicinity of Charlotte. New Hanover has just sent seven prisoners to the State Penitentiary.
"M-u-u-u-u'! but ain't it cold?" is the way they put it in Charlotte. The people of Wilmington are much excited over the usury bill now being discussed by the Legislature.

The Charlotte masquerade Tuesday night is represented as having been a magnificent success. Caldwell, of the Observer, is said to have looked splendid on the occasion-his face eing hidden.

Says the Mon e Enquirer: "A gentleman of ALS a county, a prominent citizen, tells us that the sentiments of the people of that county is in favor of Convention. This gentleman is as well acquainted with the sentiments of the people of Anson as any man in it, and we believe he correctly represents the views of the good people of Anson on this important question." Says the Lumberton Robesonian:

"Probably one of the saddest cases of death from fire came to our knowledge a few days ago where small children were the victims. A colored woman, the mother of fcur small children, all but one of whom were unable to walk, who lives in St. Paul's Township, in this county, left her house one day last week, all the children in the house. The three small children were lying in the bed. The largest one of them caught fire and ran into the bed but obtaining no relief ran out into the field. The flames, fanned by the breeze, soon enveloped the whole body, and the child was found by an individual passing the road burnt in a horrible manner, but alive. The party who discovered the burnt child, on looking towards the house saw smoke and fire proceeding from it, and upon entering it saw that the bed was on fire. Not knowing that the ill-fated bed was occupied, he snatched it up and threw it out of the house, when three little victims rolled out of the damaged by the flames. Only for the providential interference of a passer by the four little children, together with the house, would have been destroyed."

Special to the Baltimore Sun. The President's Message on Arkansas--An Astonishing Document--More Diablerie for the South--Comments on the Presidential Views-Rumors of Cabinet Changes ---The Third-Ferm Issue, Etc.

THE MESSAGE ON ARKANSAS. WASHINGTON, Feb. 8.-The anticipated special message of the President was sent to the Senate this afternoon. While in the main devoted to Arkansas affairs, it intimates as a reason for the action requested of Congress, that other Southern States may follow the example of Arkansas in changing their constitutions. The message, though brief, is full of preg-nant meaning, and is most extensively commented upon to-night. A leading Conservative Senator said that it meant that the President would have

CIVIL WAR OR A THIRD TERM, or both, if one was necessary to the other. The language of Mr. Thurman, that he was astounded at the recommendations of the President, is a feeling almost universally shared in by those who were not in the secret of the contents of the message. Although it has been freely stated for days past by the members of the Radical ring who are at work to gain control of the State Government of Arkansas, that the President would ecommend the overthrow of the Garland Government and the instalwas known that he had gone to the Capitol and endeavored to persuade members of the House Committee to report to that effect, it was not credited that he would make such recommendations over his signa-

A SUDDEN CHANGE OF BASE.

It was not forgotten that last spring the President positively refused, with the advice of his Attorney General, to recognize Mr. Brooks as Governor of the State. It was not forgotten that less than four months ago he declined to interfere with the Garland government. But at that time the Democratic success in 1874 was not alarming, and the third-term project was in no danger. What will come out of this remarkable stand now

be carried out if Congress interposes no objection in the case of Arkansas. The argument of Mr. Kellogg in beseeching for aid in September last, that unless the General Government. seeching for aid in September last, that unless the General Government interfered, all the States of the South would eventually pass out of Radical hands, has been used both by the President and the carpet-baggers to drive the Northern Radical members

of Congress into action. What the President styles the lawless and revolutionary manner in which the pres-ent Constitution of Arkansas was adopted has at least twenty precedents in the case of other States of the

A FATAL DOCTRINE.

A Southern Democratic Senator, not given to gloomy prognostica-tions, and who has heretofore looked upon the bright side of everything, said to-night that if the people of the North did not rise en masse the North did not rise en masse against the doctrine of this message there was nothing for the South but to be ground under the heel of the most oppressive despotism yet known to history. The Southern men here hope for but little from Congress, and agree with the Sena-tor that if the people of the North do not come to their rescue they are lost. It is to be expected from what is known that a resolution

RECOGNIZING RROOKS as the Governor of Arkansas will be sprung upon the Senate in some shape. His memorial on this subject was considered this morning at a special session of the Committee on Privileges and Elections, and from the tone of Mr. Morton it is certain that he purposes to attempt to induce the Senate to sustain Brooks. At this meeting to-day Mr. Alcorn read a letter which he had received from a colored citizen of Arkansas, a sheriff of one of the counties, in which he expressed the hope that nothing will be done to disturb the Garland government, which, he says, is the choice of the people, and under which everything is moving along prosperously.

THE ARKANSAS CONSTITUTION.

As a fitting commentary on the President's intimation that the Southern States may, in framing new Constitutions, violate the pledges under which they were readmitted to the Union, it is timely to quote the language of Mr. Poland in his report, when he says, "the new Constitution they regard as republican in form, and, in many respects, an improvement on the Constitution of 1868." It is stated by citizens of Arkansas here that every guarantee in the reconstruction Constitution is reaffirmed in the new Constitution, and that in some respects, the school fea-THE ARKANSAS CONSTITUTION. that in some respects, the school fea-ture, for instance, it is more favorable to the colored element. It is stated to-night, on the highest authority, that Attorney General Williams, who is generally credited with prompting all the partisan action of the President, had nothing at all to do with the inspiration of the message sent in to-day, and that, in fact, he did not, even so late as yesterday, knew of the President's intentions. Repre-sentative Beck said to night that he considered the message of the President the

MOST ALARMING DOCUMENT which had come from the White House during his whole service of 8 years in Congress. It meant revolution and nothing else, and its terseness sounded like a military order sharpened to the point. It was a direct notice to Congress, "if you don't put Brooks in, I will." He expressed the opinion that the House would stand by the Poland report. One of the Republican members said that if the President's recommendations were carried out, the ring which once dominated Arkansas would, on its new advent to power, rub the State to death.

THE THIRD TERM QUESTION. Mr. Speer, of Pennsylvania, tried to commit the House to-day on the to commit the House to-day on the third term question, but he could not even get a second on the demand for the previous question. The Democrats voted solid for the resolution, and the Republicans solid against it. The latter, however, do not wish to be understood that their action indi-cates that they are in favor of the third term. They say many of them would have voted for the resolution if the latter clause, which declared that a proposition for a third term would endanger Republican liberty and the free institutions of the country, had been stricken out, But Mr. Speer declined to permit it to be

A PREVALENT DISEASE.—There is no disease so prevalent in America as dyspepsia and certainly none which has so generally beffled and defeated the skill of the medical profession. The only remedy for this distressing complaint is a pure medicated stimulant. Hostetter's Stomach Bitters, whose essential principle is sound rye, is admitted by medical practitioners to be tree only alterative, corrective and restorative on which they can rely. The Bitters are the best possible specific for flatulency, dizziness, waterbrash, irregularity of the bowels, and all indications of confirmed dyspepsia. They do not excite, but sooth the irritated stomach and bowels, and may be taken by persons of the most delicate and sensitive organization, who are unpleasantly affected by the use of the ordinary stimulants of commerce. Though their effect is most decisive, yet they are so mild and beneficent in eperations as to be suitable to chil iren as well as to adults. feb 5-D&Wlw A PREVALENT DISEASE. - There is no dis-

GUANOS. MPORTANT TO FARMERS

ONLY \$38 PER TON.

CAT ISLAND GUANO

A GENUINE NATURAL GUANO.

Having been successful bidders against the Guanahani Guano Company of Petersburg, Virginia, for a large deposit of Guano at the Islands, we offer the same under the name of "CAT ISLAND GUANO," and at a reduced price.

THOS. BRANCH & CO., Importers, Richmond, Va.

RICHMOND, VA., January 6th, 1875.

I have resigned the General Agency of the Guanahani Guano Company of Petersburg, Va., and accepted the same position for the sale of the Guano imported by Messrs. Thos. Branch & Co., of Richmond, Virginia, which is the same Guano and from the same Islands, and I now offer it to you at the following reduced prices. WM. R. GRIFFITH,

General Agent.

TERMS AND PRICES.

PER TON 2,000 POUNDS, IN BAGS.

INFORMATION

Farmers of North Carolina.

Gentlemen—Two years ago, at the request of a number of the leading planters of your State, I endeavored to form what was then known as the North Carolina Fertilizer Company. The main object (on your part) in engaging in the enterprise was the reduction of the then prevailing high prices for fertilizers by forming a Farmers' Manufacturing Company, and said Company being owned and controlled by you, thereby be enabled to obtain a certain amount of the preduction at cost price. After spending some three months in thoroughly canvassing those sections of the State in which fertilizers were largely used, a subscription to the stock was obtained, of which we have no cause to be ashamed. Unfortunately, when we may for organization, the faise reports, de., of those who were interested in preventing its formation prevailed, and the enterprise was abandoned. I was afterwards frequently solicited to start once more, and many offers and pledges made, but I have refused, being fully convinced of issiure. Although I have refused to attempt the re-formation of said company, yet I have singer handed carried on the fight we jointly began for lew prices, being fully convinced that the true policy of the dealer is large sales and reasonable profits.

In latroducing Guanahani Guano last year, consistancy to this policy was shown, although the chemical endorsement from the highest authority in the land entitle 1 the Company to charge a much higher price than the \$40 per ton at which it was placed on the market.

It was exceled that this fight for low prices would raise great opposition from parties interested in preventing the same, but hardly that it would be carried on with such a bitter spirit as witnessed during the past year. I desire no better vindication than the certificates contained in the cleaning of the Company, showing as they do more general astisfaction to the planting phible than any fertilizer that has ever come under my observation by the demonstration of the plantion shall drive out the existing prejudice for data article.
Such prejudices as these operated more against the introduct on of Guanahani Guano than all others.

In order to enadeate these false ideas or prejudices. I appeal to that almost infallible verdict that comes from the plantation test, and refer you to the certificates contained in the circular named.

These certificates are from different sections of the States of North Carolina, Virginia and Maryland, where Guanahani was used during the past year.

In North Carolina they will be found, on examination, to extend from Gatesville in the East to Charlotte in the W st and from the first agriculturists of the different sections The reset to the cases has not been made on account of a fine growth of weed or stalk, but from final results—as shown by the an ount of grain or seed cotton—and I know of no better mode of judging than "By their foults ye shall know them."

With respect, yours truly,

WM. R GRIFFITH

A NEW ENTERPRISE.

Having resigned as General Agent of the Guanahani Guano Company after my re-election, I desire to call your attention to the new enterprise in which I am engaged as General Agent, and to inform you that I intend to still carry on the fight for low prices. Messrs. Thos. Branch & Co., of Richmond, Virginis, having secured a large deposit not covered by the grant to the other company operating the same islands, I now offer you at a REDUCED PRICE THE SAME GUANO FROM THE SAME ISLANDS as that I introduced to you last year under another name.

The guano 20w offered you will be known as CAT ISLAND GUANO, and will be delivered as it is imported (without manipulation), being a genuine guano.

With respect, yours truly,

W. M. R. GRIFFITH,

General Agent for Cat Island Guano.

Imported by Thomas Branch & Co., Richmand, Virginia.

Read the following or inions of some who have used WHANN'S RAW BONE SUPER-PHOSPHATE: PHOSPHATE:

Green Level, Wake County, N. C., Nov. 25, 1874.

Measrs. Williamson, Upchurch & Thomas:
Gentlemen:—The ton of Whann's Raw Bone Super-Phosphate purchased of you last Spring made the best crop of cotton I ever made, and I consider it decidedly the best fertilizer I ever used, I want it again next season.

Yours truly,

S. W. MITCHELL, Louisburg, N. C., Nov. 9, 1874. Messrs. Ring, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilisers during the last three years, I am satisfied that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,
JOHN E. THOMAS,

Oxford, N. C., Dec. 15, 1874. Oxford, N. C., Dec. 10, 1072.

Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.;

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the severy application of Whann's Raw Bone Super-Phosphate. The land was poor, and the severy application of Whann's Raw Bone Super-Phosphate. The land was poor, and the severy application of Whann's Raw Bone Super-Phosphate. The land was poor, and the severy application of Whann's Raw Bone Super-Phosphate. The land was poor, and the severy application of Whann's Raw Bone Super-Phosphate. The land was poor, and the severy application of Whann's Raw Bone Super-Phosphate.

Louisburg, N. C., November 7, 1874. Messrs, King, White & Shaw:

I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer.

Louisburg, N. C., Nov. 10, 1874.

I have been using Whann's Raw Bone Super-Phosphate and other kinds of manufactur d fertilizers for several years, and feel confident in saying that I prefer Whann's to any other. I cheerfully recommend it to be a first-class fertilizer, and expect to continue its use as long as its present standard is kept up.

NOON DISPATCHES

Miscellaneous Items. CINCINNATI, February 11.-Three boys on one sled ran into an express

on. One of them were killed, the other two badly hurt. CHICAGO, February 11.—The National Convention of Stove Manufacturers are in session here. They denounce free trade with Canada and reciprocity treaty.

NEW YORK, February 11.—Easterly snow and rain storm prevails. Staten Island ferry boat is cut through. She has been drawn off for repairs. The Ambassador, for London, was forced ashore by ice on flats. Several vessels, attempting to go to sea, were obliged to return. Several pilots are in the ice off Sandy Hook, which extends as far as the eye can reach.

LONDON, Feb. 11.-A royal train bearing Alfonso, was fired into by the Carists a few miles from Leogrono. None were hurt.

BERLIN, Feb. 11.—Bismarck will remain in office as long as his health permits.

PHILADELPHIA, Feb. 11.-A large dry dock has been sunk to take on the Pennsylvania for repairs. The ice floated under the dock and over-turned it, causing considerable damage. It lies on the side for several days before righted. One workman missing. Being the only dock on the Delaware and Pennsylvania rivers, it will probably be towed to New York for repairs.

Congressional.

WASHINGTON, Feb. 11 -Senate-Hamilton, of Maryland, presented a minority report from the Committee on Privileges and Elections, signed by himself and Salisbury, against the admission of Pinchback. Ordered to be printed and lie on the table.

House—The House is again consid-

ing the postoffice appropriation MIDNIGHT DISPATCHES.

Washington Matters-Congressional and Other Things.

WASAINGTON, Feb 11.—In the Senate McCreery, of Ky., introduced a bill setting forth that it had been reported in a responsible medical journal of the United States that a Coolie ship from Calcutta had be-come infected with epidemic cholera during her voyage, and it had been announced in a newspaper of the State of Tsxas that a disease resembling the cholera was raging in Mexico, at no great distance from the fron-tier of the United States, therefore the Secretary of War be directed to detail under a medical officer of the army under the direction of the Surgeon-General to investigate care fully the matter of said reports, and if they shall be found to be based on facts, he shall, through the Surgeon-General, give a due and timely no tice of the advance and spread of the disease, and should it threaten to reach the United States during the present year, it shall be the duty of said officer to complete the records of the epidemic and report the same to Congress. The bill proposes an appropriation of five thousand dollars

to defray the expenses of the investi-gation. Referred to the Committee on Appropriations.

The bill to provide a government for the District of Columbia was discussed the balance of the day. The amendment of Morton to have the Commissioners elected by the qualified voters of the District instead of having them appointed by the President, was rejected; yeas 28, nays 29.
Sargent offered an amendment to

provide for the election of a delegate to Congress, which was being dis-cussed, when the Senate adjourned. The House passed the postoffice appropriation bill, after rejecting an endment for the practical restoration of the franking privilege.

The new tariff bill was discussed

during the rest of the day's session. Dawes, of Mr ssachusetts, the Chair man of the Committee of Ways and Means, making a speech for it, and Wood, of New York, a Democratic member of that Committee, making Smith, of Virginia, introduced a

bill removing the political disabili tles of Dr. Chas. H. Smith, of Richmond, Virginia. Passed. The Senate caucussed this morning on the Order of Business. There was to be a joint session caucus to-night, but failed, probably on account of bad weather. The South generally

was to have been considered. Miscellaneous.

BELFAST, ME., Feb. 11th.—All the harbors are closed in Penobscott Bay. It is frozen over for the first time in a quarter of a century. PHILADELPHIA, Feb. 11th.—The Returned Pioneer hence for Wil-

mington, N. C., lost her head gear and foretop mast in a collision with the Juniatta, in Horse Shoe Bend. SAVANNAH, Feb. 11.—A special to the Morning News from Tallahassee, Fla., says that C. W. Jones, Demo-erat, of Escominibia county, elected United States Senator United States Senator.

ST. PAUL, Feb. 11,-No progress in the Senatorial election.

CHICAGO, Feb. 11.—The National Stove Association have fixed the following rates: Common 6], medium 7, best 8 cents per pound. LONDON, Feb. 11th .- Bullion decreased nearly half million pounds.

Weather Probabilities. WASHINGTON, Feb. 11.—For the South Atlantic States for Friday, rising barometer, colder, partly cloudy weather, with northeast to northwest winds, possibly shifting to southeast on the Texas coast.

COMBINATION TO PUT DOWN THE PRICE OF TOBACCO.—At a meeting of the Central Association of Tobacco Manufacturers, which represents the trade of the North of England, held at Manchester on Wednesday, resolu-tions were passed ascribing the pres-ent high prices of American leaf to-bacco to the united action of specu-lative holders of tobacco in the United States, and declaring that the opted States, and declaring that the operations of these speculators could best be counterbalanced by English manufacturers' purchasing only to-bacco required for their immediate wants, and where possible using to-bacco grown in other countries than the United States. We understand that these resolutions have created some animation, among the tobacco some animation among the tobacco merchants and brokers in Liverpool, who are still withholding tobacco from sale with a view to securing higher prices than those now current, London Times, Jan. 22.

Cotton-growing in Peru has been pronounced a failure, on account of a current of co.d water which runs along the coast, and produces during the summer months a thick fog, extending far into the interior. The connection between this thick fog and the failure of cotton crops is ingeniously explained as follows: The mist settles on the cotton plant and bolls in the shape of large dew drops, and when the noonday sun breaks through the fog, these dew drops act as condensing lenses and gather the rays of the sun to such an extent before they are evaporated, that the bolls become hard and shrivelled, and thus the yield of the plant is de-stroyed. For this reason and for others arising from the uncertainty of the rain-fall in that country, cotton planting is being abando sugar-cane is being cultivated. The latter is represented to be highly productive.—Philadelphia Ledger.

Advices from Spain are rather curicusly mixed. The Carlists claim a great victory; the Alfonsists admit a slight check. We have been treated, during the last week, to dispatches from Madrid giving glowing accounts of the forward march of the troops of the young King. The Carlists were defeated, the Carlists were retreating and everything was going on swim-mingly. Finally they placed Don Carlos in Guipuzcoa. A glance at the map will show, however, that he has simply fallen back before the advancing army of Alfonso into his mountain stronghold. Behind these barriers, hitherto impassable to his enemies, he has been accustomed to take his stand. The report may be true that the troops of Alfonso have lost heavily in a late battle, or may not; but it is certain they have gained no advantage of importance so far.

MORTALITY.-Nine out of the 168 leaths in Baltimore last week were from old age; consumption claimed 32 victims, pneumonia 23, scarlet fever 12. The week before the deaths from these diseases were: consumption 26, pneumonia 17, scaret fever 18, old Age 7.-Sun.

While Geo. Sauer, of New Brighton, Staten Island, was working Tuesday in the color works at Contable Point his apron caught in the machinery, and he was drawn in be-tween two large cog wheels, and in-stantly killed, his body being crush-ed to fragments. Sauer leaves several children.

MISCELLANEOUS. MISCELLANEOUS. SIMMONS' The Symptoms of Liver Complaint are unexsiness and pain in the side. Some times the pain is in the shoulder and is mistaken for rheumatism. The stomach is affected with loss of appetite and stekness, bowels in general costive, sometimes alternating with lax. The head is troubled with pain and doll, heavy sensition, considerable loss of memory, ac ompanied with alimin sensation of having left undone someong which ough it have been done. Often commitaining of weakness, debility, and low spirits, metimes many of the above symptoms attend the case, and at other times very few of them; but the its generally the organ most involved.

XANTHINE WHAT IS IT? NOT A DYE A RESTORATIVE

The Best Hair Dressing Ever Known READ! READ! READ From Rev. Dr. Baird. Secretary Board of Publication The Xanthine is the only hair dress in have ever uses which rem ved the darroff from the sc p and made my hair s and phiable. It has also restored my bests original color, and by occasiona using it as a dressing I have no doubt will preserve the color. E. T. BAIRD Richmond, Va., July 27, 1871.

CHAR' OTTESVILLE, VA., Jone 12, 18; Dear Sir: - I have used the Xanthine one year, and find it suswers the purp it is prepared for, I had used other artions for the same purpose, vizi-restoration of the half to the natural colrestoration of the hair to the hairds but was compeled to abandan the cause they affected my system, gracemarkers and neuralele. Xi however, has not had this effect; contrary, has been beneficial in the pet. Hoping that you may be such in its sale,

Lam, your troly. I am, your truly, N NNIE E. WADDEL

From the Rev. Charles H. Read, D D., Pastor Grace street Pres'yle rian Church, Richmond, Va. At a suggestion and presentation riend, I have used one bottic of Prole Heriz's Hair Rest rative, "Xantinia, has accomplished in a very brief time without sup perceptible unplea-ant or jurious eff-ct, all that is claimed for it restorer of the natural color of hair, it ung gray. ing gray. Richmond, July 20, 1871. C. H. READ.
